## DETAILED ACTION

### *Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. **Claims 1-11**, drawn to monitoring and reporting a volume of data transferred between an end user and a data network, classified in class 370, subclass 241.
  - II. **Claims 12-16**, drawn to monitoring and reporting a volume of data transferred for handoff, classified in class 370, subclass 331.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as handoff control. See MPEP § 806.05(d). In particular, group I teaches interaction between e.g., a mobile station and a Packet Data Service Node (PDSN) as recited e.g., in dependent claim 6. However, the independent claims in group II recite an interaction between more than one Packet Data Service Node (PDSN) in the form of a handoff. Such an interaction is only found for group II. Hence group II has separate utility thus possibly requiring a different search.

Because these inventions are distinct for the reasons given above and the search required for Group II is not required for Group I, restriction for examination purposes as indicated is proper.

3. A telephone call was attempted to Sandra Beauchesne on 5/18/2004 to request an oral election to the above restriction requirement, but did not result in an election being made. In

particular, there was no connection possible for the contact phone number provided of (514) 345-7900 ext. 5612.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Derrick W. Ferris whose telephone number is (571) 272-3123. The examiner can normally be reached on M-F 9 A.M. - 4:30 P.M. E.S.T.
